## OBJECTIVES AND SCOPE

One of the primary objectives of the Pesticides Documentation Bulletin is to inventory the multidiscipline literature in the pest control fields and disseminate it to interested personnel in the Department of Agriculture and other Federal departments and State, private, and industrial organizations.

The Bulletin is an index to the literature on pests and their control and the impact on the economy and man's total environment. The index will include literature on diseases, insects, nematodes, parasites, weeds, and other pests affecting plants, animals, man, our natural resources, and other values in man's environment. Literature on biological, chemical, cultural, ecological, mechanical, and integrated methods of pest control will be included. Special emphasis will be given to the literature on the biological, toxicological, physiological, biochemical, pathological, biophysical, and epidemiological aspects of pests and their control by chemical and nonchemical methods.

## FORMAT AND USE

The Bulletin is a computer-produced permuted title index in three parts: Keyword Index, Bibliography, and Author Index.

**KEYWORD INDEX.** This is an alphabetic listing of significant words in titles. Each word has been lifted out and printed on the left margin of the column, followed by the listing of all titles containing that word. As a rule titles are left intact, although some are supplemented by inserting significant words taken from the text. These supplemental words are mainly the names of organisms and chemicals, and are shown within plus signs.

Words deemed insignificant are not printed as keywords; however, they are retained in their original place in the title. Words beginning with digits, such as some chemicals, are shown at the end of the alphabetic listing. Special characters which are not recognized by the computer as words, such as Greek letters, are spelled out.

Titles in foreign languages are given in English only, with the language of the text shown in parentheses after the title.

Having scanned the Keyword Index for significant words and having determined the likely title, the next step is to note the number which has been assigned to each title. This number locates the title in the Bibliography part where full bibliographic data about the title are given.

**BIBLIOGRAPHY.** This is both a numeric and an alphabetic arrangement of titles by their senior or primary authors. Titles having no authors are designated ZZ Anonymous and are listed at the end of the regular alphabetic listing.

Abbreviated names of the publications cited follow the form used in the Bibliography of Agriculture.

The last element in each citation is the National Agricultural Library classification number which should be used when requesting loans or reproduction of articles.

**AUTHOR INDEX.** All authors are indexed but the number is that of the senior or primary author.

## AVAILABILITY OF REFERENCES CITED

Loans. Most of the material in the National Agricultural Library collection may be borrowed by employees of the Department of Agriculture and by other libraries. In requesting loans, please include the library call number found at the end of the citation. Loan of periodicals is restricted to the Washington, D. C. area. Foreign statistical publications and rare books are loaned only by special arrangement.

Free Distribution. Most of the printed publications of the Department of Agriculture and publications issued by the State Experiment Stations and the State Agricultural Extension Services may be obtained free of charge by applying direct to the issuing agency. The National Agricultural Library does not distribute them.

Reproduction. All articles listed may be obtained in microfilm or photoprint form from the Photoduplication Section, National Agricultural Library, Washington, D. C. 20250. Copying charges for each periodical article or book are:

MICROFILMS: \$1.00 for each 30 pages or fraction copied from a single article or book.  
PHOTOPRINTS: \$1.00 for each 4 pages or fraction copied from a single article or book.  
RUSH SERVICE will be furnished upon payment of \$1.00 additional for each order.

Payment must accompany the order. Cash, Library coupons, check or money order drawn to the National Agricultural Library, USDA, are acceptable. Payment for orders originating outside of the United States should be made by international money order or draft on an American bank, or by UNESCO book coupons. Superintendent of Documents coupons and requests to furnish photocopy to be paid from Superintendent of Documents Deposit funds cannot be honored. Credit may be extended only to Government agencies and institutions. Billing address should be indicated.

Library Coupons. Library coupons, valued at \$1.00 each, may be purchased in any quantity from the Photoduplication Section, National Agricultural Library, Washington, D. C. 20250.

-----  
For sale by the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C. 20402  
\$12.00 per year, domestic; \$15.00 per year, foreign. Single copies vary in price.

Use of funds for printing this publication approved by the Director of the Bureau of the Budget (March 29, 1966)

## ACKNOWLEDGMENT

The Pesticides Information Center, National Agricultural Library, gratefully acknowledges the cooperation and assistance of the Departments of Defense; Health, Education, and Welfare; and Interior; the Federal Committee on Pest Control, and State and industrial organizations in the development of the Center and preparation of this Bulletin. Special thanks are expressed to the Federal Committee on Pest Control for its suggestions and support. We hope the Bulletin will serve as an example of the effectiveness of interdepartmental cooperation and the speed with which effective services can be developed through a coordinated and cooperative interdepartmental effort.

EFFECT OF VITAMIN-A AND VITAMIN-E ON SERUM CHOLESTEROL AND ATHEROSCLEROSIS IN THE HEN. (JAPANESE)	00503			
ATLANTIC				
TRAPPING OF AIR-BORNE INSECTS IN THE ATLANTIC/ANTARCTIC-AREA.	00165			
ATLAS-MOUNTAINS				
CONTRIBUTION TO THE KNOWLEDGE OF THE ZYGAENA-FABR. IN THE ATLAS-MOUNTAINS OF MOROCCO (LEPIDOPTERA, ZYGAENIDAE). (GERMAN)	01027			
ATOMARIA-CLAVIGERA-G				
ATOMARIA-CLAVIGERA-GANGLB. (COLEOPTERA, CRYPTOPHAGIDAE) NEW TO BRITAIN.	00452			
ATRAx-ROBUSTUS				
PHOSPHODIESTERASE OF SOME SNAKE AND ARTHROPOD +ATRAx-ROBUSTUS, LATRODECTUS-MACTANS, AND APHONOPELMA-CRATIUS+ VENOMS.	00819			
ATROPHIC				
ROLE OF TRICHOMONADS IN THE ETIOLOGY OF INFECTIOUS ATROPHIC RHINITIS OF SWINE. (RUSSIAN)	00528			
ATTACIDAE				
THE STATE OF THE PROTOCEREBRAL NEUROSECRETORY CELLS OF THE CHINESE OAK SILKWORM ANTERAEEA-PERNYI-GUER. (LEPIDOPTERA, ATTACIDAE) IN THE COURSE OF LARVAL DEVELOPMENT.	00718			
ATTACK				
USE OF SALICYLIC-ACID AND DERIVATIVES FOR THE PROTECTION OF WOOL FROM INSECT ATTACK.	0061B			
ATTACKING				
SOME NEWER WAYS OF ATTACKING TSETSE FLIES +GLOSSINA+.	00120			
INSECTS ATTACKING AGRICULTURAL CROPS AND ORNAMENTAL PLANTS IN ONTARIO +CANADA+ IN 1965.	00327

AUTOPARASITISM			
OBSERVATIONS ON WITCHES-BROOM FORMATION, AUTOPARASITISM, AND NEW HOSTS IN PHRADENDRON.		00380	
AUTORADIOGRAPHIC			
LATEST AUTORADIOGRAPHIC OBSERVATIONS IN CORPUSCULATING +TRITIUM+ LABELLED PRECURSORS OF NUCLEIC ACIDS AND PROTEINS INTO THE FAT BODIES OF MUSCA-DOMESTICA-6. (ITALIAN)		00821	
AUTOSOMAL			
AUTOSOMAL FEMALE DETERMINING FACTORS IN ARMAILLIDIUM-MASATUM (ISOPODA-TERRESTRIA). (GERMAN)		00569	
AUXIN			
STUDIES ON THE PROTEINS OF PEA ROOTS AND EPICOTYLS AS INFLUENCED BY AUXIN AND SOME OTHER SUBSTANCES AFFECTING GROWTH.		00426	
AVENA-FATUA			
FACTORS AFFECTING THE PERSISTENCE OF AVENA-FATUA.		00038	
AVENA-SATIVA			
PERITHECIUM DEVELOPMENT IN LEPTOSPHAERIA-AVENARIA-F-SP-AVENARIA +PATHOGEN OF AVENA-SATIVA+.		00183	
AVENA-STRIGOSA			
INHERITANCE OF STEM RUST +PUCCINIA-GRAMINIS-AVENAE+ RESISTANCE AND OTHER CHARACTERISTICS IN DIPLOID DATS, AVENA-STRIGOSA.		00241	
AVIAN			
HOMOLOGY BETWEEN THE GENOME OF AVIAN MYELOBLASTOSIS-VIRUS AND THE CELLULAR GENOME. (FRENCH)		00371	
UPTAKE OF -P-P-PRIME DDT AND ITS POST-MORTEM BREAKDOWN IN THE AVIAN LIVER +BENGAL FINCHES (LDNCHURA-STRIATA)+.		00443
